MARKET RESEARCH

WORLDWIDE MARKET INSIGHT

The global disposable e-cigarettes market size was valued at USD 5.7 billion in 2021 and is expected to expand at a compound annual growth rate (CAGR) of 11.2% from 2022 to 2030.

The growing demand for non-tobacco products owing to rising health concerns among consumers is expected to drive the market during the forecast period.

According to an article published by National Library of Medicine, in February 2022, the use of disposable e-cigarette among young adults in the U.S. increased to 50.2% from a former base line of 22.1%. Such data suggest a positive outlook for the growth of the industry.

Notes: Data shown is using current exchange rates and reflects market impacts of the Russia-Ukraine war.
